Petition Calling on U.S. Senators Dick Durbin and Tammy Duckworth to Cosponsor S. 1804, the Medicare for All Act

We, the undersigned residents of Illinois, request you to cosponsor S.1804, which would establish a Medicare-for-all national health insurance program **and finally make healthcare a human right in the United States**. This legislation would provide comprehensive care - including reproductive, mental health, dental, and vision - for every resident of the U.S., paid for by a public insurance system.
