Petition Calling on Senators Rob Portman & Sherrod Brown to Cosponsor S. 1804, the Medicare for All Act

We, the undersigned residents of Ohio, request you to cosponsor S.1804, which would establish a Medicare-for-all national health insurance program **and finally make healthcare a human right in the United States**. This legislation would provide comprehensive care - including reproductive, mental health, dental, and vision - for every resident of the U.S., paid for by a publicly-funded insurance system.
