

# PROTECT MEDICARE!

President Obama, in order to avoid the so-called “fiscal cliff,” is willing to raise Medicare’s eligibility age from 65 to 67 and to cut Medicare, Medicaid, and Social Security by \$650 billion.

These changes would mean life and death to the most vulnerable in our country.

**Call 866-220-0044**

for the capitol switchboard and ask to be connected to your Representative or Senators.

**Tell them:**

**Don't cut Medicare or raise its eligibility age from 65. Don't cut Medicaid.** Instead, pass improved Medicare-for-all (HR 676, S 915) in order to create a truly universal healthcare system that will also reduce the deficit and save Americans \$500 billion a year on healthcare costs.

**Don't cut Social Security or raise the retirement age.** Instead, save the system by removing the \$110,000 income cap on high-earners paying into Social Security.

Medicare is the solution - not the problem. We need improved Medicare for all NOW!
