

Rally For Improved Medicare For All

Join thousands of single-payer supporters in a nationwide week of action to support improved Medicare for all (HR 676). Single-payer activists will be gathering all over the country to say, "Healthcare, yes; Insurance companies, no," and to show solidarity with demonstrations at the AHIP (American Health Insurance Plans, a private health insurance lobby) conference in San Diego.

47 million Americans are uninsured. Private insurance rates are rising faster than inflation and our incomes. By 2025 the cost of private health insurance will exceed our projected income.

A national, single-payer healthcare system is the only healthcare reform option that will cover every American resident while saving us billions of dollars. The majority of Americans want it. The majority of physicians want it. The only thing missing is the political will in Washington.
