Dear Member of Congress:

I urge you to work to defeat any bill to reduce our social safety net--Social Security, Medicare, and Medicaid. **There must be no raising of the eligibility age. Any cuts to these vital programs are simply, "Off the table."** I urge you to support expanded and improved Medicare for All, HR 676, which eliminates the 31 cents of every dollar wasted on private health insurance bureaucracy. I call on you to examine the estimated \$400 billion that HR 676 will save by eliminating private insurance companies, the parasitic middlemen that enrich their executives, increase costs for the rest of us, and deny or delay care to patients. HR 676 will implement a single-payer system that will capture the savings and deliver comprehensive, high quality health care to everyone.

Sincerely,

[www.healthcare-now.org](http://www.healthcare-now.org)
