

SinglePayer

Saves Lives ★ Saves Money

Six Senators choose to kill S.B. 810 (Leno), a SinglePayer Healthcare bill that would save the state billions while providing every Californian with guaranteed, quality healthcare.

Californians are wondering why these Democratic Senators voted against their party platform, against the interests of their constituents, against saving the state millions, and some even against their previous positions? Could it be because of the generous campaign contributions of Insurance and Pharma?
